Career Objective

Aspiring backend developer with strong fundamentals in Java and Spring Boot, currently learning React JS. Seeking a backend or full-stack internship to contribute to real-world projects, grow as a developer, and solve practical challenges in a collaborative team environment.

Technical Skills

Languages: Java, JavaScript, Python, HTML, CSS

Frameworks: Spring Boot, Tailwind CSS, React (Basic)

Tools: Git, Postman, IntelliJ, VS Code

Databases: MySQL, PostgreSQL (basic)

Projects

Blog App API (Spring Boot)

- Built a RESTful API with CRUD, pagination, JWT authentication, and role-based access.
- Used DTOs, exception handling, validation and ModelMapper for clean architecture.
- Tools: Spring Boot, MySQL, Postman.

Ecommerce backend (on going)

- Simple API with Spring Boot, used for user registration, handling products, cart and orders.
- Implemented exception handling, DTOs, ModelMapper.
- Tools: Spring Boot, JPA, MySQL, Postman.

Gym Management System (Swing)

- Gym management system, a desktop application using java swing and awt.
- Implemented the concepts of java oop, file handling and exception handling

- Simple frontend for a real estate company using **React JS**.
- Implemented proper architecture making separate components.
- Tools: React JS, Tailwind CSS.

- Frontend for an ecommerce using **React JS**.
- Implemented axios to fetch data from fakestoreapi.in for dynamic data, react slick for carousel, react toastify for showing alerts and tailwind css for better design.
- Tools: React JS, Tailwind CSS, React slick, React toastify.

2nd year BSc (Hons) Computing
Informatics College Pokhara (Affiliated to London Metropolitan University)
Relevant Courses: 2 months Web Development Course in XDezo Academy

- Java OOP- LinkedIn
